**SafeCrush™**  
BY SERRANO

**The Next Generation Pill Crusher Putting Safety First**

When the Occupational Health and Safety Agency for Healthcare (OHSAH) was created in Canada, their main aim was to protect healthcare workers. One of the first issues they addressed was the need to make crushing pills safer by reducing repetitive strain injury (RSI) and the inhalation of toxic airborne dust. After concluding there were no pill crushers in the marketplace that provided a solution, they set out to develop their own. SafeCrush™ was born of the extensive feedback of nurses and their employers.

**The Most Sophisticated Commercial-grade Pill Crusher  
Protecting Nurses, Patients And Employers**

## SafeCrush™ The Pill Crushing Solution:

### For Nurses

- ✓ Eliminates RSI associated with manual pill crushing
- ✓ No airborne pill dust
- ✓ Eliminates double pouring
- ✓ Saves nurses time better spent elsewhere

### For Patients

- ✓ Consistently pulverises pills to a fine powder
- ✓ Eliminates clogged feeding tubes
- ✓ Eliminates cross-contamination
- ✓ Facilitates accurate dose levels
- ✓ Low noise profile

### For Employers

- ✓ Protects your most valuable asset- Medical professionals
- ✓ Happier, healthier, more productive employees

## SPECIFICATIONS

5.11KG / 11.25LBS

(D) 240mm x (W) 164mm x (H) 253mm

Battery operated and rechargeable
